Get Sally Shine For Skin And Hair

(NAPSA)—It's time to pack away your sandals and sundresses, your shorts and swimsuits. Take a hard look at what you need for the fall/winter season that's fast approaching.

Ernie McCraw

Has your hair suffered from chlorine, salt and sun? Is your skin showing signs of neglect? Then head for the nearest Sally Beauty Supply for the tools to begin repairing the damage.

Ernie McCraw, Sally's director of beauty education, gives some tips to get your hair and skin ready for cooler weather:

Healthy Hair

- Visit your salon for at least a trim and a consultation with your stylist. Snipping away damaged ends does a lot to restore a healthy look, while a chat with your stylist will tell you what steps you should take to improve the structure and fitness of your hair.

- Revitalize with Ion® Effective Care Intensive Therapy Treatment to restore resilience to summer shattered hair. Its protein and vitamin formula rebuilds and rehydrates to give hair more body and make it more manageable.

- Talk with your stylist or Sally sales associate to find a shampoo and conditioner that's best suited to your needs. From a clarifying shampoo that strips away styling products to intense moisturizing treatments, Sally has a range of professional formulas to get you looking great.

Glowing Skin

- To bring your skin back to beautiful, step up your exfoliating schedule to even out a fading tan and eliminate any rough patches you've picked up over the summer. Try Purist Refining Facial Scrub to brighten up your skin.

- If dryness is a problem, use Purist MultiVitamin Gentle Skin Cleanser, then smooth a few drops of Beyond Belief Alpha Beta Hydroxy Intensive Repair Serum over face and throat and follow with Beyond Belief ABH Intensive Repair cream.

- For those with oily or troubled skin, fight oil and breakouts with Beyond Belief ABH Deep Pore Oil-Free Foaming Cleanser. Moisturize with Beyond Belief ABH Oil-Free Moisturizer and hit trouble spots with Bye Bye Blemish, a quick fix for any problems.

- Savvy Bronzers will extend that tan into fall and winter so you can look healthy and sunkissed all year.
