A Dazzling Winter Look

(NAPSA)—This winter, purple will reign! Stunning shades of indigo and violet are poised to give everyone the royal treatment, say top fashion insiders.

Top makeup artists agree. Embrace the mix-and-match technique with your makeup. Deep, vibrant purples are subtly accented with light, lemony yellows and shimmery whites on the brow bone, mimicking dazzling holiday jewels. Lips and nails are worn a bit sheerer, in bright shades of lilac and fuchsia. These colors, while a departure from the norm in many cases, are quite wearable—especially when paired with winter neutrals, dark denim and jewel-toned pieces.

“Everyone can wear violet on their eyes, providing they choose the right shade,” notes Maybelline New York Consulting Makeup Artist, Troy Surratt. “Generally, darker shades complement warm skin tones, and those of us with cooler complexions can wear lighter tones.”

Maybelline New York’s “Visions of Violet” lip, eye and nail color collection is full of exhilarating violet-pinks, lilacs and lavenders to perfectly accessorize any look this season, redefining the typical winter wonderland color palette. Evenly blend deep, rich shades topped off with black eyeliner and dramatic lashes to achieve that smoldering, smokey effect. This

Royal purple is expected to be a hot color this season.

look will guarantee a night full of festive fun.

Here are some more tips for getting a great look:

- It's a good time to experiment with your look. Spice up your wardrobe with fabrics that are rich and textured. Satin trims and brushed velvets offer an additional festive touch to any party.
- Professionals may know if you're wearing real gemstones, but nobody else will. Dazzle your friends with festive accessories to top off any look without breaking the bank.
- Remember, it is important to have confidence in what you wear and how you wear it. When you feel good, you look even better!
