

## Looking Your Best

(NAPSA)—For many women, looking their best is a top priority, but busy schedules leave little time for essential grooming.

According to a recent survey, more than half of women have gone more than two weeks without shaving, with 71 percent of women saying that they never stop worrying about hair removal.

**More than half of all women have gone two weeks without shaving.**

Veet® provides women with quick and easy shaving alternatives that fit into their lifestyles. The brand offers an assortment of waxes and depilatory creams that provide users with smoothness that lasts longer than shaving.

With something for all skin types, depilatories and wax strips remove hair closer to the root than shaving. This winter, women can have the confidence and freedom to flaunt soft, smooth skin sans nicks or razor stubble.

Here are two easy, time-saving tips:

1. Multitask. Apply Veet Fast Acting Gel Cream to legs. While it works, touch up brows or unwanted facial hair with Veet Ready-To-Use Wax Strips.

2. Travel light. Wax with Ready-To-Use Wax Strips before your trip for results that last up to 28 days.

Making it easy for consumers to keep up their routine, Amazon is offering 30 percent off Veet products through Dec 31st. For more information, visit [www.Facebook.com/Veet](http://www.Facebook.com/Veet).
