Healthcare Scholarships

(NAPSA)—Students interested in pursuing a career in healthcare may be eligible for tuition assistance through an annual scholarship program that has awarded more than \$6 million in financial aid since 1991.

A health education program helps students pursue healthcare careers.

The Department of Labor projects a 26 percent increase in healthcare jobs by 2008, totaling 2.8 million new jobs. At the same time, 168,000 positions remain unfilled in America's hospitals. In addition to doctors, nurses, and pharmacists, there will be an increased demand for technicians, physical therapists and dental assistants.

To help address this growing need, the Tylenol Scholarship will award \$250,000, including ten \$10,000 grants, to 160 outstanding students pursuing undergraduate or graduate studies in a variety of health-related fields.

Scholarship applications and guidelines are at Albertson's, CVS, Eckerd, K-Mart, Kroger, Rite Aid, Target, Wal-Mart and Walgreen's or at www.tylenol.com. Entries must be postmarked by April 30, 2003.

Note to Editors: Do not run this article after April 30, 2003.
