

BUDGET STRETCHING IDEAS

How To Look Your Best On A Budget

(NAPSA)—Looking your best and staying on budget can be easier than many people realize when you know the best ways to properly care for the clothing you have. Consider these tips on clothing care:

- The first step to keep your clothes looking their best is to properly sort by color and type of fabric. If a garment tag says “wash separately,” it’s letting you know the colors could bleed and ruin your other clothing. Always take the time to pretreat any stains at this time.

- When it comes time to wash your clothing, pay attention to the water temperature. Using the right temperature will ensure your clothes come clean without fading. Rinsing in cold water will also cut down on energy bills. When drying clothing, don’t over-dry and take clothes out as soon as they are dry to help prevent excessive wrinkling. For both washing and drying, don’t overload your machines.

- When ironing at home, you can get the crisp, finished look you want for any type of garment with the help of a product such as Faultless Starch. Premium Starch works best for business dress shirts and slacks, white or colored, because it won’t flake. Starch Plus Stain Resistance can help keep you looking professional without stains hampering your

Always hang clothes in your closet to keep them looking their best; it prevents wrinkling and preserves the fabric.

efforts. Magic Sizing is designed for patterned knit blends and heavy starch is for heavier cotton items. There are also a number of different scents to choose from to help keep you smelling fresh while looking good.

- Finally, the best way to keep your clothes looking their best is to hang everything in your closet. This will help keep away wrinkles and actually prevents the fabric from wearing out. To get rid of wrinkles without ironing, there’s Magic Wrinkle Remover; spray it on, and the wrinkles fall out.
