

HINTS FOR HOMEOWNERS

Carpet Cleaning Tips

(NAPSA)—Not all carpet cleaning contractors are alike. In fact, the difference in the quality of service between cleaners can be astounding. Add the abundance of equipment and technology available and choosing the best professional or firm can become difficult.

Be sure your carpet service provides value-oriented service with courteous personnel and quick complaint handling.

Make sure the firm you hire to clean your carpet is adequately insured and willing to provide you with references and written estimates if asked. The technicians should be required to undergo continuing training programs.

It's also important to make sure any company you're considering employs technicians who are specifically trained in carpet cleaning and who are certified by the Institute of Inspection, Cleaning and Restoration Certification.
