## Bright Ideas For Walls, Floors And Counter Tops

(NAPSA)—The timeless beauty of tile and stone has made these surfacing materials a favorite choice of many homeowners. As time goes on, these surfaces may become stained and lack their original luster. You can bring a good part of your home back to beauty when you tackle your tired-looking tile. Cleaning and restoring your home's tile, stone and grout can add sparkle to your house—and, it is much easier than you think.

**BEAUTY AND THE BATH:** It may be easier to bring floor and wall tile back to bright life than many people realize.

There are remedies to make it easy and safe for homeowners to tackle lackluster hard surface problems on their own. One company, Aqua Mix, offers a full line of tile, stone and grout cleaners that are simple to use and safe for everyday application. Regular cleaning helps maintain the tile's original beauty and slip resistance.

For those who want to restore the look of their hard surface, Aqua Mix has a variety of products designed to help natural stone, marble and tile regain their beauty and function. The company's over 50 tile, stone and grout products include enhancers (these darken, enrich and highlight the beauty of natural stone), sealers (for maximum stain protection), colorants (to change the color of your surface) and cleaners (to remove dirt, grease and grime).

Aqua Mix products are available nationwide at home centers and leading tile outlets.

For maintenance tips, locations to purchase Aqua Mix in your area and further information, visit [www.aquamix.com](http://www.aquamix.com).
