

Hints For The Home

Protecting Wood Furniture

(NAPSA)—Moisture and the sun's ultraviolet rays can take their toll on the wood furniture used on decks and porches and in sunrooms, so it's important to protect and maintain the finish.

Indoor and outdoor furniture made from "dense woods" like teak, mahogany and rosewood will

Wood furniture helps make the outdoors as comfortable as the living room, but it requires maintenance and protection.

benefit from the penetrating qualities of teak oil, such as new Minwax® Teak Oil.

Designed to penetrate into the wood's pores, teak oil protects furniture from the damaging effects of moisture and sunlight while imparting a beautiful richness to the wood.

For a warm, hand-rubbed finish and protection, follow these tips:

- Apply teak oil to new furniture or to existing furniture that appears dry or worn;
- Apply with a clean cloth or brush, wiping off excess in the direction of the grain;
- Reapply whenever the wood appears to be dry or worn out to restore the effectiveness of the finish.
