## A Calendar That Keeps Everyone On The Same Page

(NAPSA)—The kitchen calendar hanging from the refrigerator just doesn't cut it anymore for today's busy families who are trying to organize and plan more social, school, work and family activities than ever before.

A new online calendar from Trumba is getting rave reviews for the simple but powerful features it offers to help today's busy people and busy families get organized and stay connected. Trumba OneCalendar is an online tool designed specifically for someone with a busy life or someone with responsibility for keeping a group organized and on time. Trumba makes your calendar into a communications tool to give all the people in your life just the calendar information they need to stay organized.

"There are so many things going on in our lives that it's difficult to keep everyone organized and up to date. And all that disorganization just makes us feel stressed," said Dorothy Breininger, author of "Time Efficiency Makeover" and organizational expert, recently featured on the "Dr. Phil" show. "By having one place like Trumba to keep your schedules and then communicate to the family as well as friends and extended family, families can move from 'chaos and overwhelmed' to having more time for each other to do the things that are most important."

Parents can use Trumba OneCalendar to get everyone in
