**Wearable, Flattering Fashion Favorites Available Online!**

(NAPSA)—Wardrobing options are limitless and truly exciting this season! Cool weather wardrobing is a wonderful mix of simple shapes and sophisticated details. From luxurious leathers and suedes, to classic tweeds and heringbones, sweater coats, French cuff shirts, twin sets and more—this season's wardrobing is at its best!

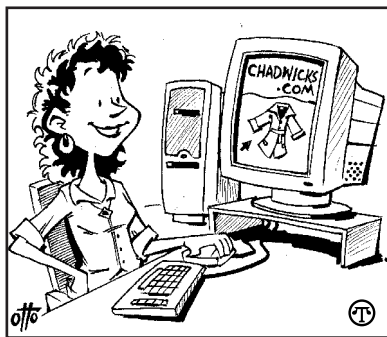

Classic styling with contemporary flair dominates the latest fashion scene. Pair the crisp white blouse with boot-length slim pants...then add a houndstooth blazer for a terrific look. Don't forget boots—a key trend seen in every height (from ankle to calf), with pants and skirts.

Classics truly make a comeback, including the 3/4-length coat in wool, leather and suede, tie-front leather jacket, and plaid, tweed and houndstooth—in skirts, pants, and blazers.

Try a chunky turtleneck over a long, knee-length houndstooth skirt with high boots to capture the essence of the season. The word on skirt lengths: all lengths reign! From above the knee, at the knee or below, select the style that flatters best. Pants are equally as versatile—top selections include chocolate suede, black leather and cuffed wool pants.

The options are both flattering and easy to wear. A new twist to an old favorite—twin sets featuring a sleeveless turtleneck and cardigan in soft shades, including pistachio and periwinkle.

The best news this season:
