

## MONEY SAVING IDEAS

### Wacky Ways Can Lead To Serious Savings

(NAPSA)—For some people, saving money is as much an art as it is a science. Here are a few creative ways to trim your budget.

- Mixing equal parts dry milk with dry flavored dairy creamer can save money and increase the

enjoyment of that first cup of coffee in the morning.

- Homeowners who encourage vines to grow on the southern and western walls of their home can cut the summer heat and their cooling bills.

- While it is not recommended, there are drivers who park on hills whenever possible. This lets them get a rolling start down hill to save on gas.

Some consumers are finding they can save money by visiting a Web site that lets them compare costs and instantly lower their monthly bills—on everything from long distance to debt relief—for free. It offers ways to save on bills as well as ways to find pricing plans that are right for your needs. Called LowerMyBills.com, the site is free to use and is the first nationwide site that empowers you to lower all of your monthly bills all in one place. To learn more, visit the Web site at [www.LowerMyBills.com](http://www.LowerMyBills.com).
