Help Lassie (And Fluffy) Come Home

(NAPSA)—Each year, 14 percent of dogs and 15 percent of cats escape or are abandoned, and while most will naturally return to their owners, there are over a million lost animals wandering around America. Fortunately, yours don't have to be among them.

That's because there's now a free app with a "lost pet" function to make pets easier to track. All the other users of the app will be mobilized to help you. When your pet comes close to another Canhe-Fit user, an alert message appears on their phone, requesting them to share their GPS location with you.

Found And Fit

In addition, the technology will also monitor your pet's eating and exercise so you and your veterinarian can make any adjustments necessary to keep your cat or dog fit and healthy. Taking into account breed, age and weight, it streams data directly to the app, available from the Apple Store and Google Play. The app even offers suggestions about what your animal needs to maintain a healthy life.

A Real Find
