New Watch Makes Child Safety Timely

(NAPSA)—There's good news for parents who are concerned about their child's safety.

There's a new product for children that combines a cool-looking digital watch with fun accessories, a piercing 110-decibel emergency alarm and an educational DVD that teaches your child how to use the watch to stay safe in the event of an emergency—such as being lost or approached by a stranger.

A digital watch with a loud emergency alarm lets kids summon help if they are lost or threatened.

The product, called OnGuard Kids Personal Safety Alert, allows your child to activate a very loud, high-decibel alarm that instantly lets everyone in the area know that he or she needs help.

The accompanying DVD features empowering safety tips for your child by renowned child safety expert Bob Stuber.
