

HINTS FOR HOMEMAKERS

Start Over This Spring

(NAPSA)—For many people, spring brings to mind more than just thoughts of clearing away the cobwebs. It's a signal to redecorate.

For the bedroom—one of the most popular picks for seasonal makeovers—try the following tips for decorating on a budget:

You can redecorate on a budget.

- **Linens**—Look for luxurious duvet covers, bed skirts and 300 thread-count linens in cream, taupe and off-white. They'll match any and all decorative accessories and furniture.

- **Pillows and Throw Blankets**—Add color and sparkle with beaded, embroidered and floral print pillows. The dresser the better.

- **Artwork and Frames**—Prints with molded frames offer texture, depth and dimension to a room. Replace dark wood frames with shabby-chic white for an updated look.

- **Lighting**—Colorful, scented candles on whitewashed wooden pedestals offer soft light with a natural feel.
