

MAKING LIFE MORE FUN

Place To Have A Ball

(NAPSA)—Bowling centers today are strikingly different than they were a generation ago.

Although the game of knocking down pins with a heavy ball is still basically the same, everything else is changing inside these popular hangouts.

Today's bowling centers are fun, state-of-the-art facilities that can be great places to spend time.

Today's bowling centers are fun, state-of-the-art facilities that can be great places to spend time. Many AMF bowling centers have been updated both inside and out, turning old-fashioned alleys into "entertainment hotspots" catering to families, youth and fun-loving adults. Inside you'll find renovated meeting spaces, upscale cocktail lounge and bar areas, billiards rooms and amazing new food and beverage menus.

The enhanced food and beverage choices make it easy to choose bowling as the new destination for your next date, group event or adults' night out. And unlike a quiet movie theater, a bowling center is designed for talking, laughing and spending time with your friends. Where else is it okay to knock things down?
