

Holiday Decorating Tips Do-It-Yourself

(NAPSA)—Capture the spirit of the season with festive decorative accents from holidays past and present that are a snap to make.

- Keep rooms fragrant with bowls of clove-dotted orange pomanders. Cast a golden glow with groupings of candles in vary-

ing heights, nestled in variegated holly leaves and berries or fill a clear vase with water and cranberries to desired height and float a candle on top.

- String garlands of pinecones and jingle bells intertwined with seasonal greenery and use VELCRO® brand Garland Ties to attach to banisters and railings. Use VELCRO brand Decorating Clips to adorn mantles, mirrors, windows and doors.

- Dress up holiday table settings using miniature ornaments, sprigs of artificial greens, berries and flowers. Attach them with STICKY BACK® brand coins to decorate placemats, napkin rings and place cards.

- Recover accent pillows in velvet and brocade fabric squares by attaching VELCRO brand Snag-Free tape to each of the four points. Place pillow in center, folding the four points over one another like an envelope to secure.

- Add festive lights to give home and garden a magical glow. Outline porch railings, gazebos, fences and trees using VELCRO brand Christmas Light Clips.
