

HOLIDAY GIFT IDEAS

Shower Someone With 365 Days Of Exhilaration

(NAPSA)—Finding a wonderful item for everyone on your holiday gift list can be a challenge—but a delight when accomplished. Fortunately, it's possible to ease both your holiday gift-giving stress and the daily stress of those on your holiday list at the same time—simply by giving them the gift of relaxation and exhilaration 365 days a year.

Shower Power

Nearly 80 years ago, Speakman led the transformation of bathers to shower-takers with its innovative showerhead constructed of solid brass and featuring a large spray-adjusting handle to satisfy any individual taste—from a drenching, full-body flood spray to invigorating needle jets.

Today, the Speakman S-2251 Anystream® eight-jet showerhead is the standard by which others are judged. It features solid-brass, large-body construction with 64 powerful, full-body, infinitely adjustable spray streams. A pressure-compensating Autoflo™ device limits the flow to 2.5 gallons per minute to meet energy conservation standards, without compromising the brisk, invigorating shower that people desire.

If that particular person on your holiday list travels often, chances are he or she has already experienced the pleasurable experience of a Speakman shower. The company's showerheads are the specification standard in bathrooms of half a million hotel and motel rooms in North America,

A deluxe showerhead makes a great gift, providing users with relaxation all year long.

including leading lodging brands such as Marriott Hotels and Resorts, Hyatt, Crowne Plaza, Hilton, Sheraton, Doubletree, Courtyard, Wyndham and Westin.

Another option for the “hard-to-buy-for” person on your gift list is a handheld showerhead. More convenient for bathing children, pets or the elderly and handicapped, the VS-2000 Anystream 2000® is fully adjustable and features nine center vibra-massage streams and a no-tangle six-foot metal hose. A handheld shower is also a smart choice for rinsing hair or shaving legs and also makes it easier to clean the shower walls, tile or the tub.

Most Speakman showerheads may be purchased at any retailer selling shower products or directly from the company by calling (800) 537-2107 or online at www.speakmancompany.com.
