

Hints For The Home

Clean Up On This Tip

(NAPSA)—The next time you get your carpets cleaned, you may be in for a pleasant surprise. The same cleaning professionals may be qualified to perform even more cleaning and restoration services during the same visit.

Carpet cleaning companies can do much more for your home than you may realize.

A recent survey conducted by the Institute of Inspection, Cleaning and Restoration Certification (IICRC) found 30 percent of people purchasing carpet cleaning services also got stain treatment. Less than 10 percent, however, also had upholstery, rug or leather cleaning or carpet dyeing, carpet repair and hard surface cleaning done, although many firms doing carpet cleaning are certified to do that work as well.

When booking a carpet cleaning appointment, you may wish to ask about such additional services.

To find an IICRC-Certified Firm, visit www.certifiedcleaners.org or call 1-800-835-4624.
