The Art of Giving Personalized Gifts

(NAPSA)—A great holiday present is one that only the giver can give. This year it's easier than ever to create and give personalized gifts to your friends, family and even colleagues and business associates.

Be sure holiday gifts make it for the holidays.

If you are looking for a gift that will truly capture memories, consider a photo gift. FedEx Kinko's offers customers ornaments and dozens of other items that can be personalized with your favorite photos—everything from tote bags and luggage tags to puzzles and mouse pads. All these items can also be customized with a company logo, perfect for holiday business gifts.

You can also create holiday keepsakes by selecting one of FedEx Kinko's, popular photo calendars, which are available in four styles. For example, the best-selling Photo-a-Month Deluxe Calendar features a color picture for every month of the year and comes with its own gift box.

For last-minute shoppers, you have until December 17 to create and send that perfect holiday gift. Photo calendars may be purchased past this date. To learn more, visit www.fedexkinkos.com/gifts or your nearest FedEx Kinko's location.
