

SENIOR SENIOR CITIZENS LEAGUE news notes

New Standard Set For Prescription Drug Coverage

(NAPS)—Senior citizens now have a new drug coverage option. “Congress has failed to help seniors deal with skyrocketing prescription drug costs,” says Michael Zabko, Executive Director of TREA Senior Citizens League. “We’ve stepped up to the plate with a plan that helps our members dramatically cut prescription drug costs.”

A new program allows senior citizens to save money on prescription drug costs.

Zabko announced that the League was delighted by the enthusiastic and heavy use by its members. “Supporters filled over 1,700 prescriptions in a month using the MATURERx™ program and saved money in the process.

Zabko indicates that the League’s program will enable members to control the spiraling costs of prescription drugs and maintain compliance with their physician-directed health care program.

The MATURERx™ program offers significant savings on prescriptions for common health problems including diabetes, high blood pressure, high cholesterol, estrogen replacement, heart disease, ulcers, asthma and allergies.

For more information on the program, send \$1.00 for shipping and handling to: TREA Senior Citizens League, Dept. N955, 909 N. Washington St., Suite 300, Alexandria, VA 22314 or visit www.tscl.org.
