

TECHNOLOGY IMPROVING OUR LIVES

ENGINEERS HAVE COME UP WITH SOME EXCITING TECHNOLOGY. FOR EXAMPLE, THE OFF-ROAD INDUSTRY NOW HAS THE WORLD'S FIRST INTELLIGENT SUSPENSION SYSTEM. FOUND ON THE POLARIS R-Z-R X-P TURBO E-P-S DYNAMIX EDITION, IT'S SMART ENOUGH TO MONITOR CRITICAL DRIVER AND VEHICLE INPUTS, CONTINUOUSLY ADJUST EACH INDIVIDUAL SHOCK ON THE FLY, AND PROVIDE BOTH A PLUSH RIDE AND HIGH PERFORMANCE. A SEVEN-INCH DISPLAY INDICATES THE SUSPENSION STATUS SO RIDERS HAVE REAL-TIME CONTROL. MORE ABOUT OFF-ROAD VEHICLES IS AT POLARIS--DOT--COM.
