## AWAKE REFRESHED

IF A GOOD NIGHT'S SLEEP SEEMS A DISTANT DREAM BECAUSE OF DRY MOUTH, YOU MAY BE ABLE TO WAKE UP TO GOOD NEWS. THE CONDITION, CALLED XEROSTOMIA (ZEE-ROW-STOW-ME-AH) AND INCREASINGLY COMMON WITH AGE, CAN BE TREATED. SYMPTOMS INCLUDE BAD BREATH, TOOTH DECAY AND PROBLEMS SWALLOWING. NOW, MELT-IN-YOUR-MOUTH DISCS CAN SLOW RELEASE XYLITOL AND ORAL LUBRICANT WHILE YOU SLEEP. ORAL ADHERING DISC TECHNOLOGY LETS THESE XYLI-MELTS (ZY-LA-MELTS) DISCS STICK TO GUMS OR TEETH FOR ALL-NIGHT RELIEF. THEY'RE AVAILABLE AT C-V-S AND RITE AID PHARMACIES. LEARN MORE AT X-Y-L-I--MELTS--DOT--COM OR CALL 8-7-7--6-7-2--6-5-4-1.
