## SAFETY REMINDER

SMOKE ALARMS AND CARBON MONOXIDE ALARMS SAVE LIVES, BUT ONLY IF THEY ARE FUNCTIONAL. ACCORDING TO THE NATIONAL FIRE PROTECTION ASSOCIATION, ALMOST TWO-THIRDS OF HOME FIRE DEATHS WERE IN PLACES WITHOUT WORKING SMOKE ALARMS. PLUS, HUNDREDS OF PEOPLE DIE OF UNINTENTIONAL CARBON MONOXIDE POISONING EVERY YEAR. THE ELECTRICAL SAFETY FOUNDATION INTERNATIONAL ENCOURAGES YOU TO TEST ALL SMOKE AND CARBON MONOXIDE ALARMS EACH MONTH. REPLACE THE BATTERIES ANNUALLY AND REPLACE EACH UNIT EVERY DECADE. LEARN MORE ABOUT PROTECTING YOUR HOME AND FAMILY AT [E-S-F-I--DOT--ORG](http://E-S-F-I--DOT--ORG).
