HINTS FOR HOMEOWNERS

THE RECENT SPIKE IN PROPANE PRICES HAS CONSUMERS LOOKING FOR ALTERNATIVE WAYS TO HEAT A HOME. MANY HOMEOWNERS ARE CONSIDERING GEOTHERMAL HEATING AND COOLING AS THAT ALTERNATIVE. GEOTHERMAL SYSTEMS, WHICH DRAW ON THE ENERGY AVAILABLE IN THE EARTH, CAN BE MUCH MORE EFFICIENT THAN PROPANE, SAVING UP TO 70 PERCENT ON MONTHLY UTILITY BILLS. PLUS, CONSUMERS ARE NOT LEFT VULNERABLE TO SPIKES IN THE PROPANE MARKET OR DELIVERY COSTS. A THIRTY PERCENT FEDERAL TAX CREDIT IS ALSO AVAILABLE. TO LEARN MORE, VISIT WATER-FURNACE--DOT--COM--SLASH--SWITCH.
