PLANNING YOUR RETIREMENT

There's growing concern that Americans won't have sufficient savings to last throughout retirement. That's the word from researchers at the Insured Retirement Institute. But by reviewing personal finances and developing a plan, they say most Americans can get on track toward a secure retirement. With National Retirement Planning Week nearing, experts recommend that Americans use this time to develop and update their retirement plans. To get started, use helpful resources available at retire-on-your-terms--dot--org or consider consulting a financial adviser who can help you develop your retirement plans.
